- ② EDA
- ③ Feature Engineering
- ④ In depth Analysis
- ⑤ Recommendation

Problem Statement: Uber

Supply - Demand

Problem Statement:

Uber has received some complaints from their customers facing problems related to ride cancellations by the driver and non-availability of cars for a specific route in the city.

The uneven supply-demand gap for cabs from (City to Airport) and (vice-versa) is causing a bad effect on customer relationships as well as Uber is losing out on its revenue.

The aim of analysis is to identify the root cause of the problem (i.e. cancellation and non-availability of cars) and recommend ways to tackle the situation.

$$\text{Ride cancellation Rate} = \left(1 - \frac{\text{\# of confirmed bookings}}{\text{\# of ride requests}} \right)$$

RCA: Diagnosis

↳ CRIED

① Clarifying questions

↳ platform dependent (iOS / Android)

↳ Any major upgrade to the product/platform.

↳ Gradual / Sudden?

② Rule out (External / Tech issues)

↳ App crashes / bugs → No

↳ Pricing / Incentive → No change

↳ Holiday effect → NO

↳ strike / protest → NO

③ Internal Data — EDA (+ HT)
(factors) → create assumption

④ External Data
(factors)
↳ competitive platform
↳ PR / Controversies

Competitive Analysis →

Aspect	Amazon	Flipkart
1. Market Presence	Amazon is a global e-commerce giant, with a strong presence in multiple countries.	Flipkart is a prominent e-commerce platform primarily operating in India.
2. Product Range	Offers a vast range of products, including electronics, clothing, books, and more.	Provides a wide selection of products, with a focus on the Indian market.
3. Pricing and Offers	Known for competitive pricing and frequent promotional offers like Prime Day.	Offers discounts, deals, and its annual Big Billion Days sale.
4. Customer Base	Has a global customer base and a strong presence in the United States.	Primarily serves the Indian market and has a substantial user base.
5. User Experience	Offers a user-friendly interface, one-click purchasing, and personalized recommendations.	Provides a seamless shopping experience, with features like Wishlist and user reviews.
6. Delivery and Logistics	Known for its efficient delivery network, including Amazon Prime for fast shipping.	Offers various delivery options, including Flipkart Plus for expedited delivery.
7. Customer Reviews	Collects customer reviews for products, helping users make informed decisions.	Features user reviews and ratings, similar to Amazon.
8. Mobile Apps	Has a well-developed mobile app for convenient shopping on smartphones.	Offers a user-friendly mobile app for both Android and iOS.
9. Loyalty Programs	Offers Amazon Prime, a subscription service with benefits like free shipping and streaming.	Provides Flipkart Plus, a loyalty program with rewards.
10. Marketing and Advertising	Utilizes advertising across various channels, including TV, online, and social media.	Engages in marketing through online and offline channels to reach Indian audiences.
